No, it is not done yet.

Sorry for the confusion....we have a few things to work out and will be talking with RMB folks Friday.

Regards,

Hi,  
I want to acknowledge the work of the team in finalizing risk assessments for 8 PMNs out of the 11 that we have finalized this week and sent to RMB. [REDACTED] and I have finalized three of them. This shows how our efforts are paying off and we are slowly un-clogging the system by empowering the most knowledgeable staff to take ownership of these assessments and helping [REDACTED] and I to expedite reviews. Things are starting to happen based on our hard work for the last 3 months. [REDACTED] Ex. 6 Personal Privacy (PP) let us know if you have questions about our new approach to expedite the management reviews.

Ex. 6 Personal Privacy (PP) is correct....we have done 3/8 for this week....taking this one on will likely supplant at least one of the five remaining ones...and they are:

P-20-0166

P-21-0002

P-20-0070

P-18-0141

P-20-0025

If we take this case, incoming/SNUR cases will be affected. Are you ok with that?

Is it possible that this one can be moved up the queue for review this week? I understand for this one, we need the final RA to negotiate final terms in the CO, which may cause further delay if there any major changes from the initial RA.

Ex. 6 Personal Privacy (PP) has all the facts right, we just have not gotten to it yet....please see highlighted part below....we have eight management review cases we agreed to try and complete this week...two are done and we (management review) are working on the other six.

I propose putting this one on the list for next week (at the earliest) as a Hair on Fire case.

Can you provide me an update? Is this case not on the priority list because it may be deemed a backlog case instead of an incoming case? We need to figure out how we manage/prioritize the FY20 cases since these are still ones the company cares about moving forward (less than an older case that maybe FY19 or older).

I just spoke with the submitter for this case and she will be reaching out to you tomorrow about the status of the final risk assessment. The case is under suspension and in management review.

It's a graphene material so we will be issuing a consent order. The company sent EPA some exposure data and additional test data in May 2020 so that EPA could revise the risk assessment and have a consent order with terms that adequately address the risks and that the company and their customers could live with. [REDACTED] and the submitter have already discussed and reviewed most of the terms of the consent order so we are now just waiting for the revised risk assessment so that we can finalize the Order. The revised risk assessment is completed but is awaiting the final management review step.

On November 20<sup>th</sup> [REDACTED] and I met with the company to give them a status update on the case. We told them they would have the Order by early Feb. (at that time the direction had not been giving to RAB to only focus on active and HOF cases).

Let me know if you need anymore background.

Thanks,
